

The month for love recognition has arrived. I hope you all are properly prepared to make that special someone feel all mushy inside. Remember that the right words can do that and they are free.

Something else that is free and sweet is a doughnut in the office on the 12th. My preference would be having you to enjoy it in the office with me, however, if you are in a hurry, it can be packaged to take with you. I know how busy your day can be.

While you are in the office for the sweet treat, you can also pick up a FREE canister of hand sanitizer foam. For you seniors that attended our luncheon, this is a larger version of what was in your goodie bag. Many of you expressed how much you liked it. I want to give a big thanks to Gene, a community resident, for this gift to you all.

Please stay warm and safe and try to be the reason someone smiles today.
