

It appears that all of those April showers have brought us some May flowers. I am hoping that the showers also washed away the pollen so that many of you will begin to feel better.

May is a month filled with silly holidays and opportunities of recognition. We are celebrating "Two Different Colored Shoes Day" as the silly holiday. Make sure you read below on how to get a prize from coming in the office on May 3rd with two different colored shoes.

We want to recognize some special people. Many thanks to the service personnel who made the ultimate sacrifice as well as our police officers that keep us safe. See below for how we will honor the officers of the Belmont Police Department. Just as important is our mothers. We would not be here without them. Let your mother know you appreciate her sacrifices and love. I have heard that only a mother can sacrifice and smile both at the same time.
