

March is a month of changes and opportunities. The change of season to Spring offers the anticipation of warmer days and the change to daylight savings allows us more time to enjoy the sunshine. The flowers are blooming, and the grass is growing. So, get those lawnmowers ready.

You also have many opportunities to celebrate, worship, and have your voice heard. You can enjoy a day of popcorn delight, dress in green so that you don't get pinched, worship an important religious event, or let your choice of presidential candidate be known by voting. Fortunately, we are free to choose none or to embrace all.

- Tammy Thomas (704-825-2946)
