

The weather has been very challenging lately, causing a delay for our ice cream truck event. New date coming soon. We have experienced many days of extreme heat and several intense storms. Please be careful while outside. See below for tips to stay safe while in the heat and although the storms come quickly, try to be prepared.

The Belmont Police Department has requested for us to participate in their annual school supply drive again. They have placed a container in our office for collection. Your donation, no matter how small, is very much needed.

School begins on August 14th this year. Please be patient and cautious with any increased traffic in the community. I hope that all students, kindergarten through college, have their most enjoyable year yet. Embrace with confidence all the opportunities being offered.

- Tammy Thomas
(704-825-2946)
